Train Ride

This realistic train runs around the park slowly. It is always very popular among children who love to see the steam whistle and smoke coming out of the train just like the real ones! The ride can be enjoyed from small children to grown-ups, so any family or friends can ride together to share the special moments. The course layout can have crossings or tunnels, and trains are available in different design. Please ask what is possible for your park.

Course length: Approx. 150m

- ✓ Track Length : 150-300 m
- ✓ Capacity : 24,36,48 persons
- ✓ Speed : 6 km/h
