Track Based Dark Ride

Sansei's Track Based Dark Ride consists of multiple number of individual, non-connected vehicles. The vehicles are guided along the ride track by a special vehicle mounted bogie assembly. Theming of the vehicle can be customized in many different ways. Onboard audio, lighting and interactive systems can be incorporated in the vehicles. With the small turning radius of 1.3 m, this ride can be easily fit in any location, including existing building.

✓	Track Length	100-200 m	✓	Speed	0.9-1.8 m/s
✓	Capacity	2-8 persons	✓	THC	480-1500 pph
✓	Vehicles	4-10 vehicles	✓	Ride Cycle	3-7 min
